

Franklin File Upload Instructions

To upload a file, please browse to our new site at <http://gofranklingo.com>. Hint: The first time you visit, please hit your refresh button to avoid the possibility of going to a cached page that could direct you to our old web site.

To upload file(s) click on the “Send a File” link.

You will then see our generic upload form where you can complete several required text fields and then browse to and select the files on your computer you wish to send to us.

You will see a confirmation that your file(s) has been uploaded. You will also receive a confirmation email. An email notification also is sent to internal Franklin individuals who will be working on your project.

If you will be sending files frequently, please use the “FranklinFast” link. If you do not have, or do not remember, your login credentials please contact your sales or customer service representative.

The screenshot shows the Franklin website homepage. At the top left is the Franklin logo with the tagline "Data Empowered Direct Mail". To the right of the logo are navigation links: "WHO WE ARE", "WHAT WE DO", "WHO WE HELP", "WHY WE ROCK", "NEWS", and "REFERENCE DOCUMENTS". In the top right corner, there are two buttons: "Send a File" (with a green upload icon) and "Login" (with a green user icon). The "Send a File" button is circled in red, and a red line points from it to the instruction "To upload file(s) click on the 'Send a File' link." The "Login" button is also circled in red, and a red line points from it to the instruction "If you will be sending files frequently, please use the 'FranklinFast' link." Below the navigation is a large blue banner with the text "For powerful direct mail, CHOOSE FRANKLIN." and a sub-headline "At Franklin, we've fine-tuned data for nearly a century. Today, we excel at managing data, printing, and perfecting shipping strategies for direct mail marketers in many industries. Although our customers tell us we're great at what we do, it's our commitment to getting better every day that keeps us growing." Below the banner are three columns: "WHO WE ARE" (Masters of Direct Mail and Data), "WHAT WE DO" (If you mail to customers, we pave the way.), and "WHY WE ROCK" (Turnaround, Automation, Security). Below these are "OUR CLIENTS" (Coca-Cola, LSU, Apple, Walmart, Best Buy, Adobe, Object 9) and a footer with navigation links and a "CONTACT US" section.
